Summary

I am a third year university student studying game development and interactive media . I am looking for a summer co-op or internship position to fulfill my university program requirements and provide me with work experience. I am punctual, reliable, and I have worked on many projects independently and with others.

Skills

- Using various game engines to create projects
- Working independently and with others to complete assigned tasks
- Assisting and listening to the needs of elderly clients
- Organizing and attending regular group meetings with video conferencing tools such as Discord and Google Meet

Education

September 2019 - June 2023 | Don Mills Collegiate Institute

OSSD - Participated in Gifted Program

September 2023 - April 2027 | Ontario Tech University

Bachelor of Information Technology (Honours), Game Development
GPA 3.58

September 2023 - April 2024 | Programing For Games I-II

Learned C# programming language and how to use it with Unity to make video games.

September 2023 - April 2024 | Game Development Workshop II

Developed a game with a group of six to present at the school game convention, which was nominated for best first year game.

September 2024 - April 2025 | Game Development Workshop III-IV

Developed a game with a group of six to present at the school game convention, which was nominated for best second year game.

January 2025 - April 2025 | Intermediate Computer Graphics

Learned several technical art and shader programing concepts that apply to development across many game design platforms.

Volunteer Experience

July 2019 - Present | Yard Work

- Raked, mowed lawn, and shoveled driveway in winter for elderly neighbors with mobility issues, keeping their property clean and allowing them to easily access their car and get it out of their driveway

August 2022 | Brickworks Academy

- Summer camp volunteer, assisted camp staff and students with various activities throughout the day such as lego, robotics, and sports, which improved my communication and leadership skills tremendously

July 2024 - August 2024 | Meals on Wheels

- Meal runner, assembled and delivered meals to elderly client's homes, offering them assistance unpacking and setting it up if needed, which strengthened my communication skills

Work Experience

August 2021 - December 2021 | Babysitter

- Picked up neighbour's children from school, walked them home, and looked after them outside until the parents returned, improving my communication skills

September 2022 - December 2022 | Metroland Toronto

- Assembled fliers delivered to my driveway and dropped them off at 100 houses around the neighbourhood throughout the evening, strengthening my organization skills

April 2024 - August 2025 | Gardening

- Received jobs from family client such as raking leaves, cleaning up weeds, and burying an irrigation line which I worked on throughout two summers, improving my organizational skills and work ethic along with the garden

July 2025 - Present | Research Assistant

- Worked as an Unreal Engine developer on a team for a Toronto Metropolitan University, coordinating with a team to complete weekly assigned tasks such as programming new game elements, expanding pre-existing features, managing and GitHub branches, helping the project reach several milestones and continue to receive funding from the client.
